

Return of the Kings

**Strategies for the long-term
conservation and recovery of
the chinook salmon**

King County's Response Report
to the proposed Endangered Species Act listing

Submitted to the

National Marine Fisheries Service by

The King County Endangered Species Act Policy Office

March 16, 1999

King County
Endangered Species Act Policy Coordination Office
King County Executive
400 Yesler Way, Room 260
Seattle, WA 98104-2637

(206) 296-3784

For more information contact the Tri-County Salmon Information Center at
1-877-SALMON9 or <http://www.salmon.gen.wa.us>.

Acknowledgments

KING COUNTY EXECUTIVE

The Honorable Ron Sims

METROPOLITAN KING COUNTY COUNCIL ENDANGERED SPECIES ACT COMMITTEE

Louise Miller, Chair, Metropolitan King County Council

Larry Phillips, Metropolitan King County Councilmember

Dwight Pelz, Metropolitan King County Councilmember

Pete VonReichbauer, Metropolitan King County Councilmember

EXECUTIVE GROWTH MANAGEMENT SUBCABINET

Pam Bissonnette, Director, Department of Natural Resources

Greg Kipp, Director, Department of Development & Environmental Services

Barbara J. Gletne, Director, Department of Community & Human Services

Craig Larsen, Director, Department of Parks & Recreation

Pat Steel, Director, Budget Office

Paul Tolliver, Director, Department of Transportation

ESA POLICY COORDINATION OFFICE

Tim Ceis, Director
Jackie Kirn, Senior Policy Manager

Dennis Canty, GI James, Bruce Laing, Ikuno Masterson, Curtis Terry, Mike Wilkins

DEPARTMENT OF NATURAL RESOURCES

Kurt Triplett, Deputy Director
Nancy Davidson, Regional Water Resources Manager
Bob Burns, Lindsay Halm, Mark Isaacson

Water and Land Resources Division

Nancy Hansen, Manager
Steve Nicholas, Manager, Watershed Coordination Section

Debbie Arima, Anne Bikle, Fred J. Bentler, Curt Crawford, Luanne Coachman, Megann Devine, Bill Eckel, Bob Fuerstenberg, Wendy Gable, Linda Hanson, Ray Heller, Louise Kulzer, John Lombard, Gino Lucchetti, David Masters, Tina Miller, Doug Osterman, Laurel Preston, Joanna Richey, David St. John, Megan Smith, John Strand, Jeanne Stypula, Kelly Whiting, Ruoxi Zhang

Wastewater Treatment Division

Don Theiler, Manager

Greg Bush, Diane Concannon, Steve Gilbert, Karen Huber, Shirley Marroquin, Wes Sprague

DEPARTMENT OF TRANSPORTATION

Road Services Division

Harold Tanaguchi, Manager, Road Services Division

Tom Bertek, Kathy Brown, Jerry Creek, Peggy Dorothy, Chad Durand, Howard Haemmerle, Lydia Reynolds, Vicki Shapley

DEPARTMENT OF DEVELOPMENT & ENVIRONMENTAL SERVICES

SPECIAL THANKS TO: John Briggs, Maggie Brown, Joanna Grist, Chuck Lennox, Andrew Marcuse, Mark Matassa, Marie McCaffrey, Leslie McLean, Andy Ryan, Mike Sinsky, Sally Thomas, Marla Williams, Karen Wolf, Quentin Yerxa, Connie Zimmerman.

Table of Contents

Chapter 1

Introduction

- The Issue: Chinook Salmon Conservation & Recovery
- Impact of Endangered Species Act Listing
- Tri-County Approach
 - Principles guiding approach
 - Principles guiding regional partnership
 - Principles guiding development of ESA Response Strategy
- Overview of the Tri-County Proposal: An Ecosystem Approach
 - Short-term strategies
 - Long-term strategy
- Relationship to Statewide Strategy
 - Joint efforts with Tribes

Chapter 2

Scientific and Management Approach

- Scientific Framework: The Emerging Salmon Management Paradigm
 - Ecological Principles of Salmonid Conservation
- Problem of Restoration in the Urban Environment
 - Priorities for Restoration and Rehabilitation
- The Management Framework
 - Management Goals
- Determining the Conservation Area

Chapter 3

Factors for the decline of Chinook salmon

- Marine Survival
- Harvest
- Modification of Disturbance Regimes
- Barriers
- Physical Habitat Quantity and Quality
- Water Quality
- Flow Modifications
- Hatchery Interactions
- Species Interactions

Chapter 4

Legal Authorities to Contribute to Conservation

- King County Specific Authority/Programs
 - King County Charter
 - King County Development Standards
 - Code Compliance (Enforcement)
 - Other King County programs
- State Programs/Legislation Implemented by King County
 - Growth Management Act
 - Shoreline Management Act
 - State Environmental Policy Act
- Federal Programs/Legislation Affecting King County
 - Clean Water Act

Chapter 5

Conservation: Past, Continuing and Early Actions

- **An Overview of Conservation Policy**
 - Growth Management Act
 - VISION 2020
 - Countywide Planning Policies
 - King County Comprehensive Plan
- **Past and Continuing Salmon Conservation Programs**
 - Basin Planning Program History
 - Habitat Restoration and Open Space Acquisitions
 - Public Benefit Rating System
 - King County Livestock Management Ordinance
 - Area Specific Habitat Plans: Elliott Bay-Duwamish Restoration Program
 - Area Specific Habitat Plans: Green/Duwamish Ecosystem Restoration Study
 - Public Education and Outreach Efforts
 - Monitoring Efforts
- **Early Actions to Achieve Salmon Conservation**
 - Major Early Action Initiatives:
 - Monitoring Efforts: Freshwater Monitoring Assessment and Analysis
 - Research
 - Protecting and Restoring Habitat
 - Improving Salmon Recovery through the County Comprehensive Plan
 - Increasing Enforcement of Regulations
 - Improving Protections for Sensitive Areas
 - Increasing Review of New Development Proposals through SEPA
 - Improving Roads Maintenance Practices
- **Chapter 5 Addendum: Use of SEPA Authority to Reduce Impacts of New Development**
 - Proposed Enhanced SEPA Review Process

Chapter 6

Biological Review Panel

- **Panel Review: Development Regulations and Standards**
 - Sensitive Areas Ordinance
 - Program Description
 - Panel Assessments
 - Panel Recommendations
 - Clearing and Grading Code
 - Program Description
 - Panel Assessments
 - Panel Recommendations
 - Shoreline Master Program
 - Program Description
 - Panel Assessments
 - Panel Recommendations
 - Surface Water Design Manual
 - Program Description
 - Panel Assessments
 - Panel Recommendations
- **Panel Review: Basin Plans**
 - Cedar River Basin Plan
 - Panel Assessments
 - Panel Recommendations
 - Bear Creek Basin Plan
 - Panel Assessments
 - Panel Recommendations
 - East Lake Sammamish and Issaquah Creek Basin Plans
 - Panel Assessments
 - Panel Recommendations
 - Soos Creek Basin Plan
 - Panel Assessments
 - Panel Recommendations
- **Panel Review: Wastewater Program**
 - Panel Assessments
 - Panel Recommendations

Chapter 7

Proposed Salmon Conservation Planning Process

- Overview
 - Relationships of WRIAs, the Tri-County ESA Response and the Puget Sound ESU
 - History of Watershed-Basins Plans in King County
 - Regional Needs Assessment and Watershed Forums
 - Relationships of WRIA Conservation Plans and Growth Management Act Implementation
- Goals of the WRIA Plans
- Overall Approach and Structure of the WRIA Plans
 - Overall Approach
 - Snohomish WRIA 7
 - Cedar/Sammamish WRIA 8
 - Green/Duwamish WRIA 9
 - Puyallup-White WRIA 10
 - Technical Support to WRIAs
 - Public Outreach and Involvement
- WRIA Outlines, Timelines and Milestones
- Early Actions in WRIAs
 - WRIA 8 Early Actions
 - WRIA 9 Early Actions

Chapter 8

Funding and Implementation

- Past Commitments
 - Planning
 - Land Acquisition
 - Habitat Restoration
 - Public Outreach
 - Intergovernmental Coordination
- Current Budget
- Future Funding
 - New local funding authority and initiatives
 - Additional federal funding
 - Additional state funding
 - Partnerships with private entities
- Summary of Funding Commitments

Chapter 9

Seattle, Bellevue and the other Cities of King County

- Submittals by jurisdictions that describe current or early actions to conserve the species

Appendix

Appendices for Chapters 5, 6 and 7 are found at the end of this document. Each appendix has its own table of contents.
